JATOTHU GOUTHAM

SOFTWARE ENGINEER | SDE | BACKEND & FULL-STACK DEVELOPMENT

Hyderabad, India | 9391930968 | Email

LinkedIn | GitHub | Portfolio | CodeChef | LeetCode | HackerRank

PROFESSIONAL SUMMARY

CSE (Data Science) undergraduate at ACE Engineering College (CGPA: 9.24/10) targeting software engineering and SDE roles. Strong academic foundation in Java, Python, SQL, data structures and algorithms, and object-oriented programming, with exposure to backend, full-stack, cloud, and applied machine-learning technologies. Builds practical skills through academic projects, internships, and campus leadership.

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, TypeScript, HTML, CSS
Frameworks / Libraries: Spring Boot, Hibernate, Apache Kafka, JUnit, Mockito, React, Redux, Streamlit, Scikit-learn
Database & Tools: MySQL, Git, GitHub, Docker, AWS, CI/CD concepts
CS Fundamentals: DSA, OOP, Operating Systems, System Design fundamentals, Multithreading, Distributed Systems

INTERNSHIP EXPERIENCE

AI Developer Intern — Summer of AI 2025 | VISWAM.AI / Svecha | 2025

- Explored Python-based AI application workflows, applying foundational programming concepts to understand how AI features are incorporated into software.
- Studied key stages of an AI workflow—data procurement, preparing datasets, model fine-tuning, and model evaluation—and how each stage contributes to model quality.
- Participated in a collaborative, project-oriented learning environment with exposure to software development practices, DevOps concepts, and practical AI use cases.

Python Full Stack Development With Project — Virtual Internship | EduSkills Academy / AICTE | Jan–Mar 2026

- Completed a 10-week virtual internship in Python Full Stack Development with a project component, strengthening understanding of how application interfaces and server-side functionality fit together.
- Practised full-stack development concepts and Python application logic, with emphasis on connecting user-facing features to underlying program functionality.

Data Analyst Intern | Bold Analytics | Aug–Oct 2026

- Worked through core data-analysis activities including data cleaning, processing, transformation, and preparing datasets for meaningful analysis.
- Explored SQL, Excel, and Python as tools for querying, organizing, and analyzing real-world datasets and supporting data-driven investigation.
- Gained exposure to an end-to-end analytical workflow: reviewing raw data, improving data quality, examining patterns, and communicating useful findings from analytical tasks.

PROJECTS

Smart Queue Optimizer Using ML | Python, Streamlit, Pandas, NumPy, Scikit-learn | View Documentation

- Developed an academic team project that supports digital token generation, queue administration, and live queue-status tracking through a Streamlit application.
- Used Python with Pandas and NumPy for data handling and Scikit-learn for ML-based waiting-time estimation, helping users understand expected queue progress.

Handwritten Digit Recognition Using Deep Learning | Python, image preprocessing, model training | In Progress

- In progress: following a guided project to build a handwritten-digit classifier; planned stages include preparing image inputs, training a deep-learning model, and predicting digit labels.

EDUCATION

B.Tech, CSE (Data Science) | ACE Engineering College (JNTUH) | 2024–Present | Expected 2028 | CGPA 9.24/10
Intermediate, MPC | Sri Chaitanya Junior College | 2022–2024 | 893 marks

LEADERSHIP & CAMPUS ACTIVITIES

AWS Student Builder Group Leader | AWS Student Builder Groups | 2026–Present

- Selected as an AWS Student Builder Group Leader to support awareness and learning around cloud technologies within the academic community.
- Encourages peer learning on AWS products and cloud-computing concepts, helping connect students with relevant learning resources and community activities.

Student Placement Coordinator | ACE Engineering College | Jan 2026–Present

- Helps coordinate placement-related communication between students and the college placement team, supporting the sharing of placement information and student coordination.

CERTIFICATIONS & COURSES

AWS Training & Certification — Domain 2 Review: AWS Certified Machine Learning Engineer – Associate (MLA-C01) — Sep 15, 2025
IBM / Coursera — What Is Data Science? — Oct 25, 2025
NPTEL — Programming in Java — Jan–Apr 2026 | Score: 90
Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Sep 8, 2025
Adobe Experience Cloud Essentials — Oct 3, 2026
Cisco Networking Academy — Operating Systems Basics — Oct 25, 2025
